### **DETAILED ACTION**

1. Per Applicant's request the Specification has been amended. Claims 1, 16, 18, and 19 have been amended. Claims 1-19 are pending.

#### ***Allowable Subject Matter***

2. Claims 1-19 are allowed.

3. The following is an examiner's statement of reasons for allowance:

As Applicant has pointed out on Page 10, 2<sup>nd</sup> paragraph of Remarks received 17 November 2004, "Bak does not disclose that the "return address is generated during execution of said native code call instruction", the native code instruction involving only a single instruction, rather than multiple instructions. Additionally, as pointed out on page 11, 2<sup>nd</sup> paragraph, Bak, the closest prior art, "teaches that the return address is generated during execution of snipped code", which "represents not a single native code call instruction, but a series comprising a plurality of instructions." These limitations are in all independent claims 1 and 19, thus all dependent claims are allowed. A combination of prior art references would not be obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2122

*Conclusion*

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
